May 2014

Finalist
Extreme Wearables
Designathon
June 2014

Featured Work
It's Your Show!
February 2015

HOBBIES

Dance
Guitar

WORK EXPERIENCE

Freelance Junior UX Designer, A Hundred Years

April 2015 - Present

Designed a responsive website, using a mobile-first approach, for a philanthropy focused on the public's health. Project involved site mapping, creating user flows, wireframing, working with the visual designers to translate designs, and working with developers to define business requirements.

Freelance UX/UI Designer, Linespace

January 2015 - March 2015

Designed a mobile app for a technology company in the aerospace and energy industries. Project involved gathering requirements, site mapping, wireframing, and UI design.

UX/UI Designer, Audiolife

November 2013 - March 2014

Created and designed an online system to allow independent artists to be able to distribute their music and merch for sale through major online retailers and indie record stores. Tools allowed artists to upload their music, design their albums and apparel products, as well as purchase small batches for tour. Project involved gathering requirements, wireframing, prototyping, UI design, and providing documentation to our developers.

Account Manager, Audiolife

June 2010 - October 2013

Managed the day to day operations of 100+ artist accounts and developed processes to streamline the onboarding of clients for direct-to-fan fulfillment campaigns. Oversaw systems integrations with new partners to allow for real-time inventory management and order status reports. Coordinated with the distribution center in Kentucky to ensure all artists' campaigns were fulfilled on budget and on time.

EDUCATION

Certification in Design Communication Arts, User Experience UCLA Extension

Graduation: June 2015

Bachelor of Science in Business Administration, Global Marketing University of Southern California

Graduation: May 2008
